

# INTEGRA SHELL SEAT

*Seating and transfer solutions  
for nursing and long term  
care environments*

**DESIGNED  
TO PROVIDE  
EXCEPTIONAL  
MANOEUVRABILITY**

Developed as an aid for moving and handling residents in nursing home environments; the Integra Shell Chair is an ideal transfer aid and provides the user with seated support and comfort.

The Integra Shell Seat tilts forward easily to help the user stand up from the chair. Ideal for users who are seated for long periods at a time as the Integra reclined positioning provides further support and comfort.

## Features:

- » A gas assisted tilt in space chair that rises and tilts users to their feet
- » Easy adjustments due to the ergonomically designed push handle with hand lever
- » Angle adjustable and removable legrest which automatically moves under the seat when the chair is tilted forwards, enabling the user to get out of the chair with ease
- » Velcro attached ergonomically designed headrest, which can be easily adjusted
- » Lap belt is fitted as standard for additional safety
- » Handy storage pocket on the backrest
- » Easy to manoeuvre high quality castors (12.5cm) which integrally rotate 360 degrees. The rear 2 castors include brakes
- » Directional wheel enables the chair to be transferred in a straight line
- » Good hoist access for easy moving and handling
- » Brown leather style upholstery on the outside, together with 2 way stretch, vapour permeable grey material on backrest, seat and leg section
